

**Student - Mentor Form  
Laboratory Safety**

An authorization from the Head of the Research Team of the Student - Mentor, attesting to the student - mentor having been trained in a laboratory, with emphasis on specific on site risks, drawn up pursuant to the regulations issued by the Minister of Labor and Welfare.

A research paper proposal will not be approved for a student who does not submit this signed form to the Research Students Secretariat.

**Authorization by the Head of the Research Team**

I confirm that I am submitting up to date and current information regarding the risks in my laboratory, and I have clarified the nature of the risks and the manner of safe work in my laboratory to all the laboratory employees in my Group: Dish washer, animal house worker, student, researcher, doctor.

**Authorization of the student - worker for the Head of the Research Team**

I confirm that: \_\_\_\_\_ has explained to me the risks in his  
Name of the Manager of the Research Team  
laboratory and has made it clear to me the ways of taking protection against them and I understood the Faculty's safety procedures, including:

1. Safety in working with radioactive materials.
2. Safety in working with chemical substances.
3. Safety in working with biological entities.
4. General Safety Procedures.

It is clear to me that my signature on this document does not constitute a waiver of my personal rights to compensation in the case of injury.
